#### CALIFORNIA MENTAL HEALTH POWER OF ATTORNEY FORM

#### IMPORTANT INFORMATION

This power of attorney authorizes another person (your agent) to make decisions for you (the principal). Your agent will be able to make decisions and act on your behalf, whether or not you are able to act for yourself.

This power of attorney does not authorize the agent to make health care decisions for you. Such powers are governed by applicable laws for Advance Directives.

You should select someone you trust to serve as your agent. Unless you specify otherwise, generally the agent's authority will continue until you die or revoke the power of attorney or the agent resigns or is unable to act for you.

If your agent is unable or unwilling to act for you, your power of attorney will end unless you have named a successor agent. You may also name a second successor agent.

This power of attorney becomes effective immediately unless you state otherwise in the Special Instructions.

If you have questions about the power of attorney or the authority you are granting to your agent, you should seek legal advice before signing this form.

The following forms are available from the National Resource Center on Psychiatric Advance Directives.

Under recent changes to California law, a health care agent, if one has been appointed, a conservator, a family member, or domestic partner may consent to participation in a medical experiment on behalf of a person who is unable to consent under very specific circumstances. See Health and Safety Code, section 24178 for a list of these specific circumstances.

# 16. My Instructions Regarding Life Sustaining Treatment \_\_\_\_\_ A. I **do not** want my life to be prolonged and I **do not** want life-sustaining treatment to be provided or continued: (1) if I am in an irreversible coma or persistent vegetative state; or (2) if I am terminally ill and the application of life sustaining procedures would serve only to artificially delay the moment of my death; or (3) under any other circumstances where the burdens of treatment outweigh the expected benefits. I want the relief of suffering and the quality as well as the possible extension of my life considered in making decisions concerning life-sustaining treatment. OR \_\_\_\_\_ B. I want my life to be prolonged and I want life sustaining treatment to be provided unless I am in a coma or vegetative state which my doctor reasonably believes to be irreversible. Once my doctor has reasonably concluded that I will remain unconscious for the rest of my life, I do not want life-sustaining treatment to be provided or continued. OR \_\_\_\_ C.
